Weekday Afternoons with Sam Kelly

Monday – Friday 3p – 7p “Afternoons”

A few years ago my husband Carlos and I had a little girl. She was born with Down Syndrome and had seizures for most of her first year of life. We spent hours in the hospital, tired and scared, always wondering if the next treatment would work. She began to heal after a women's Christmas dinner event where 300 women prayed for her. Since then, we've seen what a gift God gave us in Zoe. She delights in life, prays often and is a painter with pretty amazing talent. Our faith is so strong now. We know on this earth there will be hard times. We know the answer. His name is Jesus.

I am so grateful to have the chance to join the team at SPIRIT 105.9. I've been a fan of Steve and Amy's for years. Amy gave Zoe the only pair of shoes that would fit her when she was born. I had the mom hormones going, so I cried hard. She still has a special place in my heart.
